

Professional Development for Clinical Specialist Roles

This course provides an introduction to areas essential to those working in clinical specialist roles, including aspects of evidence based practice, leadership and teaching.

Participants will be expected to plan and carry out a work based project. There will be an opportunity for participants to write up their learning to gain academic credit following the course.

Date: 12th, 22nd, 27th January and 29th March

Time: 9am to 4pm

Venue: University College Yeovil
