Comments:

**Week 1:** None

**Week 2:** None

**Week 3.** Topics opened up peoples values and opinions, which was interesting; Felt that as we have got to know each other was much better exchange and more participation; Found the day very stimulating in that it evoked my thoughts on issues, helped recognise my own prejudices in world and showed the need to be more self aware which in turn for social work degree is extremely relevant.

### 6. Further comments and any suggestions as to how any aspect of the day could have been better:

**Week 1:** Possibly a Q&A session at end would be beneficial, would have appreciated a little more air conditioning, ended day looking forward to meeting everyone next week; Day went really well, it could not have been better; Not sure whether tables are a good idea in a group as appears could create a barrier between people.

**Week 2:** Another enjoyable day; I felt whilst the day was v informative & interesting was somewhat confused as where this all fitted in to the social workers course.

**Week 3:** I don't think it could have been better; The course is spot on; Today was the best so far; Found the day quite intensive, by 3pm I felt I had had enough and had a headache (this probably reflects more on me and my coping strategies at the moment than on the structure of the course; DVD not playing was a bit of a let down, however it allowed for time for discussion; Better preparation with regard to the DVD.
