Our print collections are held at The Sir Michael Cobham Library at Talbot Campus (TC) and the Bournemouth House Library (BH) on the Lansdowne Campus. The Library i-Floor at the Executive Business Centre (EBC) is available to accredited Business School staff and students.

Resources for your subject:

Off campus access

You will require your University login details to access our online databases when you are off campus.

Books

The Library Catalogue contains details of our print collection and provides access to electronic books. Select the 'Look for book or journal' link on the myBU Library tab. Search the Catalogue for authors, titles or using subject terms. Results indicate the campus location of printed books and a shelf mark (found on the spine label).

To find a specific title, ensure you have the complete shelf mark including letters after the numbers. If QR or F&S precede the shelf mark, it is part of our reference collection which must remain in the Library and cannot be loaned.

Some shelf marks relevant for this area are:	
SPSS/ PASW	005.349
Using Statistics	519

Journals

Electronic journals are accessible via the 'E-journals' link on the myBU Library tab and many are available on the Library Catalogue. Search for journal titles such as those listed below. For advice on finding information, go to the Academic Skills tab on myBU.

Some of the key journals for this area are:
Health Statistics Quarterly
Statistics in Medicine

Journal Article Databases

mySearch searches across the majority of our electronic resources. However, to search individual databases covering specific subjects, you can use the 'Databases' link on the myBU Library tab. Our online databases store bibliographic information about journal articles (such as the title, author, year of publication and abstract) and in many cases, the full text articles. They may also provide access to news, conference proceedings, reports or statistical data.

Alerting services and RSS feeds allow you to keep up to date with your favourite websites in an automated way. They bring together the latest tables of contents (TOCs) of selected journals, updates on your saved database searches or news updates from online news sources and trade association websites.

Professional Awareness

You are encouraged at BU to develop appropriate academic and professional knowledge and skills to enhance your employability. The Professional Awareness webpages (accessible via the 'Further Information' section on myBU Library tab) provide links to professional associations and associated publications which will support your learning.

Many of the associations and publications include job vacancies, blogs, alerting services (via RSS feeds and e-newsletters for example) and details of other organisations.

Referencing:

Access the Library's BU Guide to Citation in the Harvard Style via the 'Databases' link on the myBU Academic Skills tab. Referencing is a way of demonstrating that you have read around your subject. Each time you use someone else's ideas or words it is essential that you acknowledge this in your work by citing the source in your text and having a reference/bibliography list at the end of your work.

Citing your references enables the reader to refer to the original source themselves. This reduces the risk of your being accused of plagiarism - the act of presenting the ideas or discoveries of someone else as your own. More information is available on the myBU Academic Skills tab.
