

IEEE Xplore Mobile^{Beta}

IEEE has launched IEEE Xplore Mobile^{Beta}. With this free service, anyone can search articles in the IEEE Xplore digital library from any Web-enabled phone by going to <http://m.ieeexplore.ieee.org>.

IEEE Xplore Mobile gives you the convenience and flexibility to read an abstract while away from your computer, email yourself a link to a paper you do not want to forget, check the availability of a new journal issue, conference proceedings or standard, and more.

Insert search
term

Select the title link to view abstract.

Select the E-mail link to e-mail yourself a link to the article. Full text of the article will be available to you providing the article is part of the IEEE ASPP collection to which Bournemouth University subscribes.
