### **Study Spaces**

In Bournemouth House Library, located at Lansdowne Campus, we offer different zones to meet your study needs.

For group work, we have social learning spaces, and if you wish to work independently and quietly, you can use room B103 next door to the Library. Or, as you enter the Library head to the area on your left, passing the self service machines, to find a quiet study desk. If you need to collaborate on a presentation, you can use one of our Techno Booths. The Techno Booths and a selection of computers can be pre-booked using the myPC booking system via the myBU Library tab.

Wi-Fi and blue network sockets are available throughout the building if you wish to use your laptop. Printing and copying facilities are also provided.
