“Living and studying here in Bournemouth has been an incredible journey from start to finish. Attending a course in the National Centre for Computer Animation (NCCA) boosted my confidence and made me a better digital artist: this made me choose to stay here for my Master’s course too which has been an amazing choice and experience.”

Diana

BA (Hons) Computer Animation Art & Design, MA Digital Effects

“I developed lots of new skills during my course that didn’t just come from the lectures and lab sessions. It also came in different forms, this really helped during difficult and challenging situations, and has made me more prepared and competitive during my dissertation and no doubt in the future.”

Rohan Muralidhara

MSc Cyber Security and Human Factors

“The best thing I like about the research at BU is that students have the opportunity to shape their research based on their interests but in a way that it can be aligned with university research’s themes. This helps students to collaborate with other research groups within the university.”

PhD Graduate
