How we process applications for courses with additional selection measures

- If the course has a required subject, are you studying/ have you studied the subject(s) we need you to have?
- If you *haven't* yet sat your exams, do your predicted grades meet our tariff threshold?
- If you have already sat your exams, do your actual grades meet our tariff threshold?
- If you meet the requirements above, your application progresses to the next stage.

Portfolio review

- Does your portfolio demonstrate the skill and creativity that you will need on the course?
- If you meet the requirements above, your application progresses to the next stage (offer OR pre-offer clearance checks).

These areas of assessment are progressive and must be met in this order to reach offer stage.
