

Preparation for the Practice Supervisor and Assessor Role

Do you support learners completing practice placements?

Would you like to know more?

We all remember our first day on placement; being made to feel welcome was vital to becoming part of the team. Practice placement is essential for professional development. These interprofessional study days will help you to develop an understanding of the practice supervisor and assessor roles (NMC 2018; HCPC 2017). These are interactive days so come prepared to share your knowledge and experience.

Pre-requisites

Both days are available to all Health and Social Care Registrants. It is relevant for all practitioners supporting learners in the workplace. The Practice Supervisor day must have been completed prior to attending the Practice Assessor day

What will you gain from the study days?

Day 1: Practice Supervisor

- How to provide an effective practice learning experience
- The role of the practice supervisor
- Coaching as a learning strategy
- Providing feedback and contributing to assessment

Day 2: Practice Assessor

- Assessment strategies
- Quality assurance processes
- Fitness for practice
- Facilitating learning for assessment

Please note delivery is now online, using a combination of facilitated virtual classroom sessions and self-managed learning, information will be emailed to you before the day.
