SUSTAINABILITY POLICY

1. SCOPE AND PURPOSE

- 1.1 This policy is applicable to any member of BU staff, students, external contractors and other relevant stakeholders.
- 1.2 BU's goal is to manage its activities and estate to deliver continual improvements in environmental performance through the adoption of key policy commitments. BU will deliver this Policy through its ISO14001/EcoCampus Platinum certified Environmental Management System (EMS).
- 1.3 The scope of the EMS is the provision of Higher Education and related support services at Bournemouth University Talbot, Lansdowne and Yeovil campuses and University run halls of residence. Not included in the Scope are satellite campuses, Uni-lets and privately run halls.
- 1.4 BU will consider the risks and opportunities associated with its activities and how it can use its control and influence to make a net positive impact on the environment. BU will also consider the impact of the environment on its operations and infrastructure.
- 1.5 This Policy forms part of BU's contribution to achieving the UN Sustainable Development Goals.

2. KEY RESPONSIBILITIES

- 2.1 The Chief Operating Officer, on behalf of BU's leadership team, has responsibility for overseeing the implementation of this Policy and embedding sustainability in the organisation.
- 2.2 The Sustainability Strategy Group, which reports to the University Leadership Team, has overall responsibility for implementation and monitoring of this policy. Day to day responsibility lies with the Sustainability Team.
- 2.3 All staff, students and visitors have a responsibility to adopt behaviours that will make a net positive impact on the environment.

Policy

4. OVERVIEW

- 4.1 Bournemouth University is a large organisation with approximately 2,000 staff and 17,000 students. It is committed to maintaining and wherever possible, enhancing, the quality of this environment, both for people who live and work in the University and for the wider community.
- 4.2 Bournemouth University recognises that its activities have an impact upon the environment at local, regional, national and global levels and acknowledges a responsibility for the protection of the environment and the health of its members and the community.
- 4.3 The 2012-2018 Strategic Plan includes a commitment to ensure graduates develop a global perspective and understand the need for sustainable development by embedding sustainability across the curriculum; achieving a holistic approach to sustainable development; and ensuring Bournemouth University operates an affordable, sustainable and secure Estate.

5. AIMS

The University is committed to:

- 5.1 Complying with, and where appropriate, exceeding applicable compliance obligations relevant to its operations.
- 5.2 Preventing pollution and protecting the environment both through its direct actions and through its influence on others.
- 5.3 Implementing an EMS to identify its significant environmental aspects and impacts and drive continual environmental improvement.
- 5.4 Providing a high quality work and study environment to support the health and wellbeing of staff and students.

6. OBJECTIVES

This Policy provides the framework for setting and reviewing environment and sustainability objectives and targets. The University is committed to achieving sustainability good practice throughout its activities by:

- 6.1 Embedding the principles of sustainability and global citizenship into the curriculum to ensure all graduates have the opportunity to develop the skills and confidence to deal with issues relating to sustainable development.

- 6.2 Promoting research related to sustainable development and contributing to BU's Fusion strategy.
- 6.3 Providing education and training on sustainable development for students and staff so they can make a full contribution to the University's agenda for sustainability and can work and live in an environmentally responsible way.
- 6.4 Implementing a Carbon Management Plan to deliver an aspirational 40 per cent reduction in carbon emissions by 2020/21 based on a 2005/06 baseline.
- 6.5 Continuing to acquire the majority of electricity from renewable sources, either through the purchase of renewable energy, or through an increased use of on-site renewables to reduce dependence on fossil fuels and increase energy security.
- 6.6 Implementing an ethical investment policy to ensure BU will not knowingly invest in companies whose activities include practices which directly pose a risk of serious harm to individuals or groups, or whose activities are inconsistent with the mission and values of the University.
- 6.7 Implementing a sustainable procurement policy to maximise the social value and minimise the environmental harm of BUs spend on goods and services and adopt a life cycle analysis to support the circular economy.
- 6.8 Promoting the prudent use of natural resources to continue to Reduce – Reuse – Recycle resources and send zero waste to landfill.
- 6.9 Implementing a travel plan to encourage reduced dependency on car use and improves the transport options available to staff, students and visitors.
- 6.10 Continuing to invest in the estate and IT to reduce energy and water consumption and develop resilience to the predicted impacts of climate change.
- 6.11 Implementing a sustainable construction policy to design, build and maintain a world class estate and achieve, as a minimum, the Building Research Establishment Environmental Assessment Method (BREEAM) 'Excellent' rating and Energy Performance Certificate A rating at design stage for all major estates projects over £2m in value.
- 6.12 Protecting and where possible enhancing the green infrastructure for people and wildlife.
- 6.13 Providing affordable, nutritional and healthier food and drink choices to encourage informed purchasing by customers on campuses and in halls.
- 6.14 Working with suppliers and contractors to ensure they comply with this policy and manage their activities to minimise harm to the environment.
- 6.15 Engaging staff and students and the community about sustainability to encourage the adoption of more sustainable habits.
- 6.16 Working in partnerships with the local community, the High Education Sector and other key stakeholders to share good practice and implement and celebrate sustainable development.

Procedures

7. PROCEDURES

- 7.1 All Environmental Management System procedures are related to this policy.

General

8. REVIEW

8.1 The University will review and publish this Policy on an annual basis and ensure corrective and preventative actions have been taken to drive continual improvement.
